Jacen: Those stupid Corellians are only sending worthless ships to fight me!

Centerpoint Station destroys the worthless Corellian ships and the not-so-worthless GA ships. Jacen survives because ~~there are still two more books in the series and LucasArts wants to milk as much money out of the fans as possible~~ his ship accidentally moved out of the way just in time.

Jacen: Crap on a stick!

Centerpoint implodes before it can destroy Coruscant.

Corran Horn: Take **that**, Corellian Trilogy!
