

Legacy of the Force: Recollections

Revelation

Andrew: What is wrong with Jacen in this cover? Why is he wearing one of Mr. Rogers' sweaters? Why does he look like he has the mumps? Why does he look uncomfortable? Is he constipated or something? Oh well. I'm sure the cover isn't indicative at all of the contents of-

Andrew notices the author's name.

Andrew: ****.

Luke: Only Boba Fett can teach you how to kill Jacen.

Jaina: But you already beat him half to death. Why can't you just finish him off?

Luke: *My Name is Earl* is on TV tonight, and I don't want to miss it. Also – gratuitous Naboo reference!

Jaina goes to Fettland to train under the almighty Boba Fett.

Beviin: Time for some hand-to-hand combat. I'm going to get inside your reach and humiliate you in front of everybody!

Jaina: Uh... just how are you planning on getting inside my reach? I'm, like, four and a half feet tall. In most places I'd probably be considered a midget.

Beviin beats the crap out of Jaina. With a stick. Somehow, it never occurs to her to defend herself.

Beviin: Jedi are weak!

Jaina: What makes you say that?

Beviin: The author!

Boba: Would you like to know what "ba-buir" means?

Jaina: No. Also – gratuitous Naboo reference!

Meanwhile, in space:

Daala: I'm Daala. Somehow, I'm competent now. And I have lasers that turn metal into crystal. Also – gratuitous Naboo reference!

Pellaeon: Please, somebody kill me.

Tahiri does.

Pellaeon: Thank... you...

Back in Fettland (I mean, Mandalore):

Boba: Order 66 was the best thing ever!

Jaina: Oh, really? What was your favorite part – the one where they murdered the children?

Boba: Hey, look everyone – I have a pet Jedi! They're good for manual labor, as long as you don't let them get too uppity.

Jaina: So, you love slavery and genocide... and **you**'re the honorable one?

Boba: We have special iron that's completely invulnerable! It's only found on Mandalore and only we know how to smelt it!

Jaina: Out of all the planets in the galaxy, only one of them contains this particular ore?

Boba: Yep.

Jaina: Is this book being written by a three-year-old?

Boba: Would you like to know what "ba-buir" means?

Jaina: Wait. Did we just have a scene without a gratuitous Naboo reference?

The Mandalorians storm Jacen's ship. Boba Fett shoots Jacen in the knee. He doesn't finish Jacen off because ~~there's still one more book in the series and LucasArts wants to milk as much money out of the fans as possible~~ he doesn't feel like it.

Andrew: My head hurts from all the stupid.

Ryan: I'm sure the next book will fix everything.

Andrew starts crying.

Niathal: Gratuitous Naboo reference!

The End
